

# Flying High

PPS has recently secured a contract with Zoom Airlines, (Canada's No: 1 budget airline) to produce their in-flight magazine. The supplement consists of a minimum pagination of 68pp and will be produced periodically throughout the year.

Despite the strength of the pound against the Canadian dollar Progressive once again proved that it is truly a global supplier by not only beating the current production schedule but also passing on valuable savings to the client.

PPS ensures that it stays at the forefront of print technology. 4 miles or 4000+ miles distance is no obstacle with files being transferred via FTP sites, and proofed in a similar way.

From receipt of artwork the magazine is proofed, printed and despatched to Canada within a 7 day turnaround.

PPS

Progress'ive. adj 1. advanced in outlook
